

Toro.Hack Capture the Flag Competition

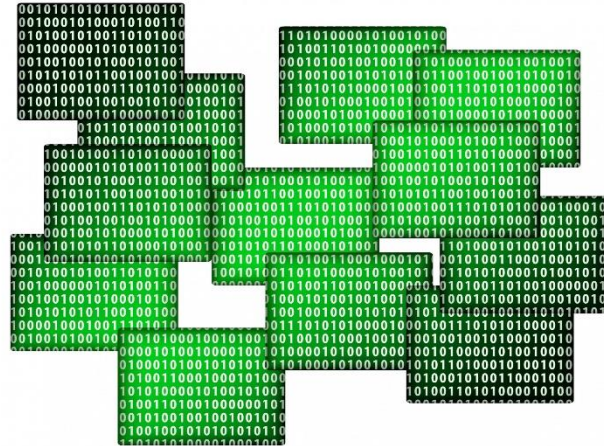

March 4th, 2017

10:00AM – 3:00PM

California State University, Dominguez Hills

Ballroom C

All Levels from novice to expert are encouraged to participate.

Computer security represents a challenge to education due to its interdisciplinary nature. This attack-oriented competition attempts to distill the essence of many aspects of professional computer security work into a single short exercise. Work in teams to solve challenges related to computer security. There will be staff to help guide you and give hints throughout the competition.

Competition topics include:

- Packet analysis
- Decoding/Decryption
- Scanning/Enumeration
- Open Source Intelligence
- Obtaining Access to a Computer System (VM)
